

Cover Letter

Dear Hiring Manager,

My name is Kim Oleg, and I am an experienced software engineer with over **15 years of expertise** in software design, including **Python and C++ development**. I am eager to apply my skills in **backend development** and **high-performance API design** within a strong team that values **code quality** and **engineering excellence**.

I bring hands-on experience with **FastAPI, Django, MySQL, TCP/UDP protocols**, and **STM32 microcontrollers**. My approach emphasizes **clean architecture, process optimization, and rigorous testing** to deliver scalable and maintainable solutions. I am a quick learner, a collaborative team player, and committed to achieving tangible results.

I would welcome the opportunity to discuss how my background aligns with your team's needs. Thank you for your time and consideration—I look forward to the possibility of an interview.

Best regards,

Oleg Kim
